INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM

Property/District Name: 12904 Draper Road, Clear Spring Survey Number: WA-V-184

Project: Rehabilitation of 12904 Draper Rd, Clear Spring Agency: CDBG

Site visit by MHT Staff: no yes Name _____ Date _____

Eligibility recommended Eligibility not recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

Based on the available information, the house at 12904 Draper Road does not appear to meet the National Register Criteria for individual listing or for district nomination. The frame farmhouse is one of a grouping of three buildings, two late 19th century houses and a frame sawmill, inventoried as WA-V-184. The houses were said to have been built by members of the same family. The house at 12904 Draper Road exhibits irregular massing, a multi-gabled roof and Victorian details. It has lost some original fabric on the exterior, but appears to remain largely intact. The house at 12904 Draper Road does not appear eligible on its own or as part of a group of buildings or as part of a larger district. Better examples of modest Victorian farmhouses and of the sawmilling industry remain throughout the County. Neither this house or the grouping of three buildings known as WA-V-184 are known to be associated with any event or persons significant in history. The grouping of three buildings is located well outside the Clear Spring Historic District, which has been determined eligible by this office and is not located in any other known district.

Documentation on the property/district is presented in: Project file, WA-V-184

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This complex includes two late 19th century houses on the south side of Draper Road and a frame sawmill which still stands on the north side of the road. The western most of the two houses is a two story, five bay aluminum sided frame structure. It has a formal facade with a central entrance. The other house, to the east is a multi-gabled building with an irregular roof line. Both houses are said to have been built by members of the same family.

The sawmill is a frame structure with vertical board siding.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This complex dating from the late 19th century reflects both current housing types but also represents an important local industry, sawmilling.
